„Arukaze“<sup>1</sup> des französischen Filmemachers Gaël Sall**

Arukaze has been enjoying life in his little paradise for a very long time. He is caretaker of a garden surrounding the gate to the realm of fairies. When Yansa Lu became the hero, Arukaze was happy to retire from his duties in people's world. Indulging his dionysian personality, the Tiger forgot about the dangerous threats in Midgard, relying on Yansa Lu to fulfill the role of Sentinel and on Trinity to tell him should his services be required again.
